Organizan

The Argentine Association of Sanitary Engineering and Environmental Sciences, together with the Inter American Association of Sanitary and Environmental Engineering, is pleased to announce that AIDIS is hosting the XXXVII Inter American Congress on Sanitary and Environment Engineering, taking place from April 12 to 15, 2021 in Buenos Aires, Argentina

“Innovation and Efficiency for Sustainable Development”

The motto of this Congress “2030 Agenda” - Innovation and Efficiency for Sustainable Development” is front and center in AIDIS due to many concerns and challenges that governments, companies, and organizations have overcome in order to attain sustainability in their work from now to 2030.

CATEGORY DIAMOND

TECHNICAL PAPERS + ROUND TABLES

The scientific committee invites the academic, industrial, and business sector, and government to submit research and technical papers related to the topics discussed in this Congress. Contact trabajostecnicos@congresos.aidisar.org.ar to ask for information on the call for papers, requirements, and/or submission dates.

TOPICS

The topics of this conference will consist of

Water and Sanitation

Developing skills for water and sanitation operators and practitioners in the region.

Integrated management models to cover all stakeholders in the organization (users, employees, suppliers, and communities at large) and to ensure the continuity of long-term results.

Environmental management challenges: Innovation on waste disposal or on water treatment “byproducts” discharge of waste water.

Circular Economy and Waste Management

The Circular Economy applied to the integrated management of solid waste.

Inclusion as a key factor for development: flexible methodologies and innovation to address the socioeconomic problems arising from unsustainable practices.

Environment and renewable energies

Local and regional contribution of Renewable Sources of Energy in the world’s energy matrix.

Governmental incentives and projects underway.

Climate Change, habitat and vulnerable cities

Discuss the topic of Climate Change Adaptation with politicians in the region.

Sustainable Development Goals:

Reflect the commitment and contributions made by government, companies, and institutions to attain the SDGs for 2030.

The impact on Climate Change for vulnerable populations.
